PRODUCTION AND MANUFACTURING

Germany SIEMAG (SMS) aluminum extrusion machine and production line, CNC processing center, ANFU brand PC/PMMA cover extrusion production line to create a modern LED linear lamp factory, achieve the production of aluminum, cover production, automatic processing, painting chain LED linear lamp craft.

LED ALUMINUM PROFILE KIT BY QSLITE

We will provide you with professional support and services for LED linear lighting profile kit accessories, including aluminum profile, PC cover, End cap, mounting accessories and splice accessories.

SUPERLIGHT INGLEDE is dedicated to be a high-quality LED linear lighting profile kit one-stop manufacturer

我们为您提供专业的支持和LED线性照明型材套件配件,包括铝型材,PC盖,端盖,安装配件和拼接配件。

我们致力于成为高品质的LED线性照明型材套件一站式制造商

ALUMINUM PROFILES

Aluminum shell as an important part of LED linear lighting, has good decorative performance, the surface is fine oxidation treatment, can also be processed into different colors. Each of our products is professionally designed to increase the area of the aluminum profile or change its shape to change its performance. Aluminum has heat dissipation performance, can prolong the service life of LED lamp strip. Aluminum has good rigidity, which is convenient for LED lights to be fixed in a straight line. In order to match various use scenarios and matching power, we provide different styles of structure thickness for choice. The thickened aluminum groove can be used for the ground to prevent deformation by stepping on it. Special structural process design, aluminum also has a certain flexibility, can be arbitrary bending of different shapes.

PC/PMMA COVER

PC/PMMA mask improves the light effect on LED linear lamps. We routinely provide 4 colors of PC/PMMA masks, each mask has a different light effect, so that the LED light strip after lighting uniform light, so as not to hurt the eyes and achieve better lighting effect. The mask has anti-dust function to protect the LED lamp belt and prevent dust from entering and affecting the life of the lamp belt. At the same time, the mask has different special structure, full plastic tube sealing structure, with silicone plug glue can achieve IP65 waterproof, thickened structure can be suitable for high strength pressure on the ground. Lens mask can focus light and improve luminous efficiency
