Product features

It's compatible with MiBoxer 2.4GHz RF products. It communicate icloud with smartphone via Wi-Fi network, user can do remote control for connected lights via **"Tuya Smart"** or **"MiBoxer"** App. Support third party voice control, meet every smart application in your home.

Compatible with 2.4GHz RF products

Third party voice control

16 Millions of colors to choose

Support Remote control

Color temperature adjustable

Home sharing function

Dim brightness / Saturation

Tap-to-run & automation

Smartphone APP control

Support timer control

Product parameter

Model No.: WL-Box2

Input: 5V  500mA (Type-C)

Working Temperature: -10~40°C

Wireless Technology: Wi-Fi IEEE 802.11b/g/n 2.4GHz

RF: 2.4GHz

Transmitting Power: 6dBm

2.4G RF Control Distance: 30m

Indicator status instruction

Device status	"SYS" Indicator	"LINK" Indicator
Pairing with Wi-Fi	Flash quickly	Off
Connected with Wi-Fi	Off	On
Steuersignal empfangen	Off	Blinkt
Wi-Fi getrennt	On	Off

Smartphone app control instruction

Download an install “Tuya Smart” APP

Search “Tuya Smart” in apple or google store, or scan QR code directly.

Please creat account if using in the first time.

Pairing with Network (5G router is useless)

1). Wire gateway with power source, enable smart phone to connect with WiFi.

2). Standby pairing with Network

Confirm “SYS” indicator flashing quickly

Please long press “SET” 3 seconds if indicator not flash quickly

3). Click “+” in APP

4). Select “Lighting”

5). Find out “Light Source (BLE+Wi-Fi)”

6). Finish every step based on instruction

Copy Remote

While you have multi lamps which are already linked with remote, the new gateway have two control solutions for your lamp:

Way 1: Follow instruction of linking gateway and link gateway with your lamp.
(Disadvantage: waste time)

Way 2: Use “Copy remote” function, it can control lamps once copying is done.
(Advantage: save time)

How to copy remote?

1. Click “Set”
2. Click copy remote
3. Click “Copy”
4. Finishing it based on App instruction

Clean up

Clean up remote which is copied, divide remote and gateway

Attention: gateway only can copy one remote, it will replace the previous one if user copy another new remote

How to select zones?

- 1). Click connected gateway,
Eg: "2.4G Gateway".

- 2). Explanation

Short press to select zones
(Master zone, 1-16 group zone)

Short press to select zones
(Master zone, 1-100 group zone)
Attention: "0" means master group

How to rename group zones?

Attention: only support to rename master zone and 1-16 zones

1). Long press to “Choose zone”

- 2). Click zones which you want to rename
(Eg: ALL)
- 3). Type new name
- 4). Click “Save”

Link/Unlink instruction

The lamp must be linked with gateway. One zone can control countless MiBoxer 2.4G lamps.

Link:

- 1). Select group zones;
- 2). Power off lamps and power on again after 10 seconds (review lamp instruction)
- 3). Lamp is on, short press “Link” 1 time
- 4). Link is done once light flashes 3 times slowly

Unlink:

- 1). Select group zones;
- 2). Power off lamps and power on again after 10 seconds (review lamp instruction)
- 3). Lamp is on, short press “Unlink” 1 time
- 4). Unlink is done once light flashes 10 times quickly

Share device in home

1). Click “”
