

DALI & Push Dimmer

Important: Read All Instructions Prior to Installation

Function introduction

Product Data

Input Voltage	Output Current	Output Power	Remarks	Size(LxWxH)
12-24VDC	1x10A	1x(120-240)W	Constant voltage	145x46.5x16mm

- In compliance with IEC 62386-101:2014, IEC 62386-102:2014, IEC 62386-207 Ed2.
- Built-in DALI-2 interface, DALI DT6 device
- Match all DALI systems in the market
- 1 dali address input, 1 channel output
- Mini Size, High Output Current, 10A/CH
- Push Dim Function, Directly Support AC High Voltage Input Push Switch
- DALI Dimmer Function While Controlled by DALI Master
- Waterproof grade: IP20

Safety & Warnings

- DO NOT install with power applied to device.
- DO NOT expose the device to moisture.

Operation

This product has both DALI dimmer and push dimmer functions while connected with DALI master controllers and AC push switches respectively.

1.DALI Dimmer

DALI address is assigned by DALI Master controller automatically, please refer to user manuals of compatible DALI Masters for specific operations.

2.Push Dimmer

2.1.Click the button to switch ON/OFF

Press and hold down the button to increase or decrease light intensity to desired level and release it, then repeat the operation to adjust light intensity to opposite direction.

Note: DO NOT connect and use DALI and Push Dimmer simultaneously, just choose either of them to control.

70040017

Wiring diagram

1.Control by DALI master

2.Control by AC push switch

1)One AC push switch with multiple DALI dimmers

1)Multiple AC push switches with one DALI dimmer
